SOLUTIONS

FOR WIRELESS
COVERAGE AND CAPACITY

SMALL CELL RADIO CAGES

Our Radio Cages are a pole mountable solution used for concealing radio equipment. Capable of holding radios, rectifiers, combiners and other equipment. The Radio Cages are an aesthetically pleasing solution to mask cable heavy equipment in an open environment.

DESIGN FEATURES

- Designed based on GR487 and customer specific requirements
 - Pole mounts designed for ease of installation
 - Multiple equipment configurations available
- Multiple mounting options available, including wood pole flush mounts, 6" standoff mounts, metal pole U-Bolt mounting, and combination flush/offset mounts

PRODUCT SPECIFICATIONS

- Passively cooled
 - Designed to maintain OEM operating temperatures
 - Copper ground bar included
- Open space for cable drip lines, and tie offs for cable management
 - Powder coat finish, color set by customer specification
 - Draw latches to ensure secure and consistent door closure
 - Wind stop to prevent door from closing during maintenance
 - Lifting eye lugs
